

Would you like to embark a journey of cross-culture exchange without leaving your house? Become a host family!

BostonWise builds two-way bridges across cultures. From April 24th to May 7th, a group of 15/16-year-old Chinese exchange students will visit south shore high schools. They would like to stay with local families to learn new ways of life and to share their culture as well. We are looking for host families to welcome the students to their homes.

In addition to the invaluable benefit of cross-culture exchange, host families are also entitled to receive a \$500 stipend for hosting each student. In lieu of a stipend, you may also choose to receive a \$600 credit per student that can be applied towards our reciprocal 2017-2018 BostonWise China Exchange Program(April 2018), PCC Advanced Studies Summer Program, or Summer @Stonehill Pre-College Program. Additional bonus are available for referrals and for hosting two or three students.

Students who serve as school buddies are eligible for a \$100 scholarship to be used in the aforementioned programs. They are also invited to apply as school ambassadors or our summer program interns with free room and board.
